The Consell de Formentera wishes to direct a message to female victims of gender-based violence: you may be isolated given the state of alarm, but you are not alone. A still-operational help desk for female victims can be reached at 971321271 or by sending an email to violencia genere@conselldeformentera.cat
.

And, the Balearic Institute for Women, Ibdona, has a 24-hour hotline at 971178989. 112 is additionally available for emergencies, as is 016 for general information. Judges will continue hearing charges of gender-based violence and issuing restraining orders and other measures to protect children.
