

The Formentera Council's environment office reports that this Sunday, May 20, ecological group “Que Celeste” will stage the latest in a series of community beach cleanups.

Volunteers are asked to meet at 12 noon at kilometre marker 8.5 in es Carnatge—the Council and the Govern balear will supply the pick-up gear and rubbish bags. Cleanup is in a rocky area with scant shade, so organisers urge volunteers to come with appropriate footwear and a hat.

Litter collected will be repurposed and transformed into décor pieces at "Que Celeste"'s annual festival.
