

Council installs 199 solar panels across 6 public buildings

Tuesday, 21 May 2019 14:53

The Formentera Council's environment department reports that 199 photovoltaic panels have been fitted on the rooftops of six public buildings around the island: 15 on es Molí, 60 at the Sant Francesc library, 24 at the slaughterhouse, 8 at la Mola school, and 56 and 36 at the Mestre Lluís Andreu's respective upper and lower campuses.

Funding for the €111,215 project was provided by the Govern balear (€54,608) and the Formentera Council (€56,607). The equipment is expected to generate 89,760kW per year, for an annual savings of €9,689.

In the words of environment councillor Daisee Aguilera: "The Council hopes to gradually replace electric power for more renewable sources like solar energy".
