

The Formentera Council's social welfare department is announcing details today of the administration's €16-thousand funding package for seniors and islanders with disabilities.

To be considered for the assistance, applicants must reside on Formentera and be at least sixty-five or have a minimum of 33% impairment. Other qualifying conditions exist as well; individuals with disabilities who receive live-in care outside Formentera can apply, too, provided other family members maintain residence on the island.

Further details can be obtained by contacting the social welfare department directly. Applications will be accepted until Saturday, August 25, at the Citizen's Information Office (OAC), 6, carrer de Ramon Llull in Sant Francesc.

A review committee will be enlisted to determine this year's recipients. In 2017, fourteen aspiring candidates were awarded assistance totalling €12,000.
