

The Formentera Council announces there is now a place on the island where residents can renew or make a first request for a national ID card, or DNI, meaning islanders are no longer required to travel to Eivissa to handle the procedure.

Formenterers who wish to process DNI requests must visit the Casal d'Entitats next to the department of social welfare (conselleria de Benestar Social). An appointment must be made prior to such a visit, either by visiting the local police department in person, telephoning 971 32 22 01, or on the web at www.citapreviadni.es .
