

The Formentera Council has joined a motion launched by Federació de Municipis i Províncies, a network of cities and provinces, to observe a minute of silence in condemnation of the horrific acts that recently took place in Orlando. The Council also wishes to extend its support to the victims and their families.

The general public was invited to take part in the moment of silence today at 12 noon on the front steps of the Council. CiF president Jaume Ferrer, as well as CiF councillors and other administration staff, all took part in expressing their profound sadness for the lives lost.
