

The Formentera Council has posted a list of subjects likely to appear on the theory-based exams faced by aspirants to the Formentera fire brigade's reserve workforce.

The reserve gives the Formentera Council a guaranteed pool of trained individuals in case of emergency.

Conditions of the offer are expected to be approved in the first week of July and posted on the Balearic Islands official bulletin, the BOIB. After posting, candidates are free to begin preparing for the selection process.
