

The Consell de Formentera has asked the Port Authority of the Balearic Islands (*Autoritat Portuària de les Illes Balears, APB*

) to detail the changes attending the transfer of maritime excursions to the new pier adjacent the passenger terminal and to indicate how many single-day excursions arrive at the port of La Savina. "We have said this many times already and insist once again", said Ana Juan, "the arrival of maritime excursions must be regulated". The Consell president additionally asked Francesc Antich, president of the APB, for explanations about the capture of ship's grey water inside the port.

On Monday, President Juan sent a letter to Ignacio Revilla, chief of the APB's Eivissa-La Savina office, requesting "urgent action on the harbour promenade, where numerous flaws on the cycling path and roadway render normal circulation difficult".

Also, President Juan asked to be briefed on the projected completion of work to equip the new Formentera Fishermen's Guild with electrical connections. The APB has pledged that work will be completed by 15 July.
