

The Formentera Departments of Island Services and the Elderly report a host of maintenance operations are under way at old persons' clubs across the island. The days ahead will see deep cleans and disinfecting measures at the clubs, including in Sant Francesc and at Casa del Poble.

Crews painted the interior of the Sant Ferran seniors' centre and upgraded electrical work, with plans on track to replace the centre's front awning and instal new upholstery for €3,448.50.

Walls at the seniors' club in Sant Francesc have been fitted with wooden hangers, landscaping work has been carried out at the club in Es Cap, and repairs are in the works for the wood shutters at Casa del Poble.
