

Formentera Council president Jaume Ferrer and Espai Frumentària chief Miquel Costa met today to sign a deal to promote and spread culture in 2018.

The Council commits €6,000 as part of the partnership, which aims to bolster Formentera's cultural programming in 2018 and drives initiatives like “El 7 a les 6”, la Filmoteca, concerts, exhibitions, theatre classes and a space for playwrighting and stage productions.

Founded in 2009, Espai Frumentària didn't assume its current form until 2013, when it began promoting playwrighting and stage productions and spreading artistic and cultural activities. The group also coordinates workshops, training programmes and other learning initiatives.
