

The Formentera Office of Mobility reports that a rental contract must be visible in all rental vehicles that are left in blue/green metred parking and overflow parking areas in La Savina between the months of May and October. Violators may be subject to fines. Today, to pre-empt parking problems in La Savina, blue zone parking attendants embarked on a push to raise awareness about this measure.

"Last summer unrented rental vehicles parked in La Savina saturated the area", explained Rafael González, Councillor of Mobility. "Now, with changes made to the ordinance and the rule change currently being worked out, rental vehicles may not be parked in La Savina unless the details of an active rental contract are left visible. The document must be signed by the company that owns the vehicle and a natural or legal third party", he added.

Local car-hire companies have received a form that must be filled out and left by drivers in a visible area in the front of the car when they park. In the days ahead, blue zone attendants will leave flyers on rental vehicles parked in La Savina reminding motorists that failure to comply with the measure could soon mean fines.

Last summer unrented rental vehicles parked in pay-to-park areas in La Savina were at the centre of 150 fines issued by Formentera Local Police. Under the modified ordinance, blue zone attendants will be able to issue fines too. "This regulatory change was communicated and agreed with the La Savina Residents' Association and car rental companies in response to parking shortages in the centre of La Savina last July and August", said Councillor González.
