

CiF vice president Susana Labrador and councillor of sport Jordi Vidal met today with Jacobo Domínguez Tur, the first Formentera native to win the Copa Balear, a trap shooting contest in the Balearic Islands. The competition, celebrated since 1999, was held last weekend on Menorca.

Councillor Vidal seized the opportunity to congratulate the young skeet shooter, who was only too happy to receive the honour of being the island's first Copa Balear title-holder. "It's a big responsibility", said Domínguez, "and a great satisfaction to have lifted up Formentera even just that little bit".

The Balearic champion began practising skeet, or trap shooting, at 14 years old. Today he is 22. Alongside Domínguez was another member of Formentera's local shooting association, Joan Ferrer, who also participated and came in fourth.
