

The Office of Social Welfare of the Consell de Formentera reports that this week, the Anar Foundation (*Fundació Anar*) led year-three pupils at CEIP Mestre Lluís Andreu, CEIP Pilar and CEIP Sant Ferran and year-one students of ESO at IES Marc Ferrer in training to promote social harmony.

The training aims to encourage intervention programmes that promote and improve coexistence, or *convivència*, in the classroom. Participants learned that children and families both can get help on hotlines managed by Fundació Anar, which works to help children and teens ([more information](#)).

Fundació Anar facilitates workshops on the island as part of a collaboration agreement with the Office of Social Welfare of the Consell de Formentera.
