

The Office of Youth of the Consell de Formentera is pleased to report that Friday 31 March, the Casal de Joves will celebrate the 15th anniversary of its opening. At 4.30pm, the island's youth drop-in centre will host an open day where all of Formentera can get to know the facilities and meet Casal youth and staff.

From 5.00pm, there will be children's activities like face painting, spin art, table football and other games so that, in the words of Vanessa Parellada, youth councillor, "pre-teens can start getting to know the centre too, with Casal teens on hand to lead the way". Parents and Casal attendees from years past can also come enjoy the celebration, said Parellada. "The idea is to open the space to children—who will soon be old enough to use the Casal too—and other family members, for a party that is inclusive and has a place for everyone, but which puts young people at the centre."

At 6.00pm, a snack will be offered to all attendees. From 8.30pm, the audience will guide the "actors" in an activity called "Improxoc" through creation of a totally improvised story. The performance will be followed by a pizza dinner and, at 10.00pm, the evening's crowning event: a rap concert from the first generations of Casal youth (Lu, Tur, Acqua, Gawchito, Flaco Fer and Dj Day-n).
