

The Consell de Formentera would like to raise local awareness about increasing numbers of abandoned cats on the island. In recent weeks, kitten litters as well as other, apparently domesticated adult cats have been found in rubbish containers and ditches. A municipal ordinance prohibits the abandonment of animals and creates fines of €30 to €15,000 for violators of the rule.

For more information, contact the Consell de Formentera veterinary service (tel. 971 32 10 87, ext. 3164 / veterinari@conselldeformentera.cat).
