

The Formentera Council's office of sport has announced open enrolment for a second year of summer synchronised swim activities, a programme organised jointly by the administration and the Sincro Formentera swim club. Enrolment, which can be effectuated in person at the Citizen Information Office (OAC), closes 5 May.

The summer camp-style programme, called 'el Campus de Natació Sincronitzada', takes place 1 July through 11 September. Participation is open to boys and girls who know how to swim and are already five at the time of enrolment. The camp programme will comprise an array of different activities both in the water and out, touching on psychomotricity, dance, corporal expression, makeup, hairstyling and costumes and group trips to the beach.

El Campus starts at nine in the morning and continues until two in the afternoon, with an eight o'clock, early start option available. The programme has a monthly cost of €100, with a 50% discount for large families and a reduction of 20% for multiple siblings.
