

Formentera Council president Jaume Ferrer has met with Miquel Costa, president of Espai Frumentària, to sign into effect the two entities' partnership to promote and disseminate culture in 2019.

The Council pledges support so the association can produce cultural and art programming (“El 7 a les 6”, Filmoteca, concerts and exhibits, for example), organise the “Aula de Teatre” theatre workshop and sponsor individual stage production initiatives. The Council promises to give Espai Frumentària up to €6,000 to help meet the costs of such efforts.

The partnership deal was signed Thursday March 7 in the CiF's central offices.
