

The Consell de Formentera reports that due to the evolving public health situation and amid the island's adoption of "Enhanced Tier 4" protocol starting Saturday 30 January, the Sala de Cultura (Cinema) will close for at least two weeks. Sessions at the cinema will be postponed from tomorrow. The La Mola lighthouse will shut its doors as well for the duration of the new public health alert.

Marià Villangómez library will remain open to the public with appropriate capacity restrictions in place.

Ajuntament Vell exhibition space will open Monday 1 February as scheduled for "Autoretratos", a selection of work from artist Christoph Steinmeyer. Due to new rules, capacity will be limited to five and visitors must comply with public health protocol.

Consell-backed activities such as the pottery, woodworking and painting workshops have been placed on hold as well.
