

Next month Formentera will host three productions from Teatre per a la Memòria, a series organised by the Balearic government in collaboration with the Office of Heritage of the Consell de Formentera.

The first performance will take place at 7.00pm Saturday 29 October, in the Sala de Cultura (Cinema). Coinciding with the Day of Remembrance, L'Alicorn Theatre will present 'Fragments a Mallorca durant la Guerra Civil', in which the story comes to life through the Civil War memories of wounded women. The text is built around a succession of stand-alone stories united in tragedy, and each character relates the events in which he or she was the protagonist.

At 12 noon on 13 November, Noctàmbuls Theatre will perform 'Les cançons perdudes' for the crowd at the Jardí de ses Eres. Written by Jaume Miró and directed by Joan Fullana, the documentary play is also a collective work of creation in which the actors took an active role.

The third and last performance will start at 8.00pm, 28 November, in the Casa del Poble de la Mola. In addition to a narration of Federico García Lorca's last night on earth, before the artist was gunned down for his "modern" ideas, Òrbita Productions' 'Amarg' narrates the story of all those who have been repressed, persecuted or tortured for their beliefs and of individuals, ahead of their time, who decided to live free and paid dearly for it.

All shows are free of charge, with invitations available for download at [Ticketib.com](https://www.ticketib.com).
