

The Office of Culture of the Consell de Formentera is pleased to report that Aboon Teatre will present *Baby Esferic*, a silent production expressing emotions through shapes and lights, at the Sala de Cultura (Cinema) from 6.00pm on Saturday 11 March. This 45-minute play is intended for children between six-months- and four-years-old, as well as their guardians. Through various stories and landscapes, this homage to the Earth speaks of the magic that ties us to the planet and its inhabitants. With immensely visual language, a white sphere is the main character that will be transformed into varying friendly animals. The aesthetic, minimalist and delicately visual, lets viewers' imagination run free.

As the troupe explains, *Baby Esferic* "awakens the imaginations of adults and children alike. We make the child's experience accessible to adults and create a harmonious space between these two realities."
